

May the magic of autumn colour bring you many blessings.

Autism Awareness Month

Autism is the term used to describe a group of neurodevelopmental conditions. These conditions are characterized by differences in communication and social interaction.

Causes

Autism has no single known cause and it is likely to affect people who have related genetic disorders

Treatment

There is no cure for autism because autism is not a disease but it's a neurotype. Treatment options include Behavior, communication therapies, Educational therapies and Family therapies.

Symptoms

Autism spectrum disorder may have limited, repetitive patterns of behavior, interests or activities, including any of these signs: Performs repetitive movements, such as rocking, spinning or hand flapping; performs activities that could cause self-harm, such as biting or head-banging.
