World Cancer Day

CANCER IS A DISEASE WHICH OCCURS WHEN CHANGES IN A GROUP OF NORMAL CELLS WITHIN THE BODY LEAD TO UNCONTROLLED, ABNORMAL GROWTH FORMING A LUMP CALLED A TUMOUR; THIS IS TRUE OF ALL CANCERS EXCEPT LEUKAEMIA (CANCER OF THE BLOOD).

TYPES OF CANCER

Carcinoma

A cancer that arises from the epithelial cells (the lining of cells that helps protect or enclose organs). Carcinomas may invade the surrounding tissues and organs and metastasise to the lymph nodes and other areas of the body. The most common forms of cancer in this group are breast, prostate, lung and colon cancer

Sarcoma

A type of malignant tumour of the bone or soft tissue (fat, muscle, blood vessels, nerves and other connective tissues that support and surround organs). The most common forms of sarcoma are leiomyosarcoma, liposarcoma and osteosarcoma

Lymphoma and Myeloma

Lymphoma and Myeloma are cancers that begin in the cells of the immune system. Lymphoma is a cancer of the lymphatic system, which runs all through the body, and can therefore occur anywhere. Myeloma (or multiple myeloma) starts in the plasma cells, a type of white blood cell that produces antibodies to help fight infection. This cancer can affect the cell's ability to produce antibodies effectively

Leukaemia

Leukaemia is a cancer of the white blood cells and bone marrow, the tissue that forms blood cells. There are several subtypes; common are lymphocytic leukaemia and chronic lymphocytic leukaemia

Brain and spinal cord cancers

These are known as central nervous system cancers. Some are benign while others can grow and spread.

It's important to be aware of these symptoms - don't hesitate to seek medical advice if you notice any changes.

- Unusual lumps or swelling
- **Unexpected bleeding**
- Unexplained weight loss
- **Fatigue**
- New mole or changes to a mole
- **Complications with urinating**
- Unusual breast changes
- **Appetite loss**
- A sore or ulcer that won't heal
- **Heartburn or indigestion**
- Heavy night sweats

DID YOU KNOW!

The 29th of February is a leap year, in this year the planet has to be aligned with the stars.

"IN EVERYTHING YOU DO GIVE THANKS"

We would like to give thanks to all the families who entrusted us to give their loved ones a befitting send-off.

DO YOU HAVE A MOMENT?

Mind giving a review on our Facebook page? We'd be so grateful.
